Clusters shown are based on benchmarking based on patents
Deep Tech startup creation and funding at different stages from early to unicorns

DeepTech in Switzerland

Key takeaways in Europe

+ Deep Tech in Europe has grown strongly and has shown resilience in recent market turmoil

European Deep Tech startups raised \$17.7B in 2022, 22% less than 2021 total, but still +60% on 2020.

Looking at Q3 & Q4 2022, Deep Tech was the 2nd best performing segment behind only Energy year on year.

LPs in Europe see Deep Tech as the 2nd most promising segment in venture capital.

VC investment in European Deep Tech startups

+ Key emerging areas in Deep Tech have changed

By its own nature, Deep Tech is constantly evolving. Some segments mature to the scaling and mainstream phases, while new ones emerge to push the boundaries of what is possible.

Four core emerging segments of Novel AI, Future of Computing, Novel Energy and Space Tech raised \$4.4B in 2022, their highest total ever and double that of 2020.

VC investment in core emerging Deep Tech segments in Europe (2022)

+ Requirements to accelerate European Deep Tech

Europe has great technical talent and research to lead in Deep Tech. Many European Deep Tech successes have their roots in academia, spinout processes and unrealised potential of European universities can still be unlocked.

Four core emerging segments of Novel AI, Future of Computing, Novel Energy and Space Tech raised \$4.4B in 2022, their highest total ever and double that of 2020.

Unlocking potential of academic spinouts

Bridging the gap between early stage dedicated Deep Tech investors and generalist

Gender inclusion is still in the early innings

DeepTech in Switzerland

European Deep Tech startups capital raised

Venture capital investment in European
Deep Tech startups

Selected Deep Tech rounds
in 2022

Startup	Funding round	Focus
 climeworks	\$600M Series F	Direct air carbon capture and storage
	\$335M Series D	Industrial robotics
	€300M Early VC	Nuclear fission
	€128M Series A	Quantum computing
	\$136M Series D	Earth observation satellites
	\$101M Series A	Generative AI

DeepTech in Switzerland

European Deep Tech investment

Europe is far behind the United States in terms of investment in deep technologies, but still ahead of China.

Deep Tech is key for European sovereignty and security.

More is needed if Europe wants to be the third pole and have control over critical technologies and enablers

Global VC investment in Deep Tech
by startup HQ (2020-2022)

The share of funding coming from US and Asia for European Deep Tech increases to nearly 50% at late stage

DeepTech in Switzerland

European research in Europe and Switzerland

Europe has the great technical talent and research leadership required to play a key role in the future of global Deep Tech.

High share of highly-cited research publications

European students are more into science
(portion of graduates in Science, Technology,
Engineering, and Mathematics)

Europe excels in Computer Science ranking (THE 2022)

1. Oxford	11. Imperial College London
2. Stanford	12. UCLA
3. MIT	13. Tsinghua (Beijing)
4. ETH Zurich	14. Caltech
4. Cambridge	15. TU Munich
6. CMU	16. Singapore Nanyang
7. Harvard	17. University of Washington
8. Berkeley	18. Cornell
8. National University of Singapore	19. Peking university
10. Princeton	20. École polytechnique fédérale de Lausanne

... and does well also in Engineering ranking (THE 2022)

1. Harvard	11. University of California
2. Stanford	12. Peking university
3. Berkeley	13. Imperial College London
4. MIT	14. Georgia Tech
5. Cambridge	15. Singapore Nanyang
6. Oxford	16. Yale
7. Princeton	17. Tsinghua (Beijing)
8. Caltech	18. Carnegie Mellon University
9. ETH Zurich	19. École polytechnique fédérale de Lausanne
10. National University of Singapore	20. University of Michigan-Ann Arbor

DeepTech in Switzerland

Universities in the UK and Switzerland created the most spinout value

European universities which created most spinout value

University spinout value created by universities' country

■ Total number of spinouts (1 point) ■ Total number of spinouts that raised series A (5 points) ■ Total number of spinouts with unicorn valuation (50 points)

DeepTech in Switzerland

Largest Deep Tech ecosystem in Europe

UK, Germany, France Sweden and Switzerland are the largest Deep Tech ecosystems in Europe.

Switzerland, Sweden, Finland and Norway are the most Deep Tech focused ecosystems.

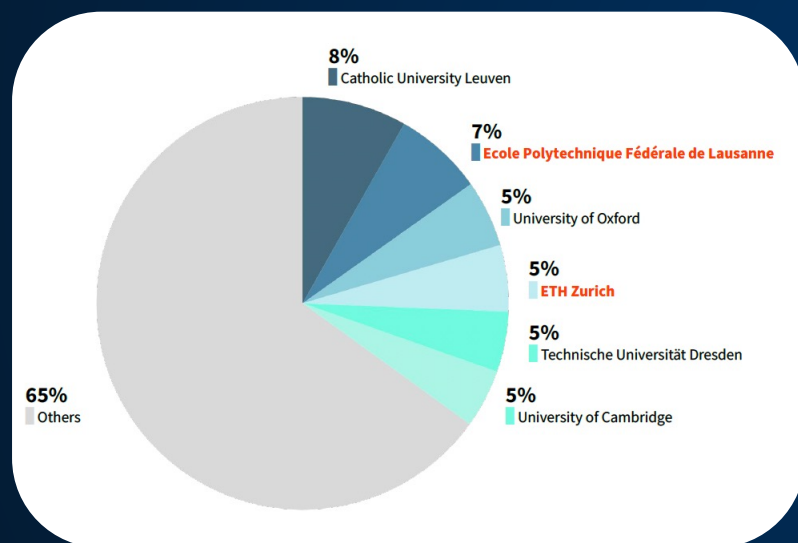

UK	\$28.7B	21%	Oxford-Culham-Harwell-Abingdon, Cambridge, Bristol, Dundee, Warwick, Southampton, Edinburgh, London*
Germany	\$12.8B	21%	Berlin, TU Munich, Fraunhofer, KIT, RWTH Aachen University, Uni Mainz, Darmstadt University of Technology, Ulm, German Aerospace Center
France	\$9.8B	18%	Paris, CEA (Atomic Energy Commission), Vision Institute, LNE-SYRTE, LP2N, Grenoble Institute of Technology, Inria, Sorbonne (incl. ISIR)
Sweden	\$8.5B	33%	Lund, KTH Royal Institute of Technology, Luleå University of Technology, Uppsala, Karolinska Institute, Chalmers
Switzerland	\$6.7	35%	ETH Zurich, Swiss Federal Institute of Technology Lausanne, EPFL, IDSIA, UZH
Netherlands	\$3.2B	18%	Eindhoven/Brainport-ASML-NXP-Philips, Delft, Wageningen, TNO, University of Amsterdam, Twente
Finland	\$2.4B	32%	VTT, Aalto, Oulu, University of Helsinki
Spain	\$2.2B	15%	Starlab, Polytechnic University of Catalonia (incl. ICFO)
Norway	\$1.7B	27%	NTNU
Ireland	\$1.1B	11%	Limerick, Dublin
Belgium	\$1.0B	16%	Ghent, Leuven-Imec, Hasselt, Antwerp, UCLouvain, Vrije Universiteit Brussel
Denmark	\$1.0B	14%	Odense, University of Copenhagen, SDU
Italy	\$744M	13%	Politecnico Milano, Politecnico Torino, University of Milan, IIT
Austria	\$517M	13%	Tu Wien, University of Applied Sciences Technikum Wien
Poland	\$489M	24%	Warsaw University of Technology, Wroclaw University of Science and Technology, Polish Center for Technology Development
Portugal	\$338M	23%	University of Porto, University of Lisbon, Universidade NOVA de Lisboa

DeepTech in Switzerland

Deep Tech patents held by universities

Active patents held by top European universities

Leuven, Lausanne, Oxford, Zurich, Dresden and Cambridge lead by Deep Tech oriented patents

Active patents held by top European universities by university country

DeepTech in Switzerland

Density of Deep Tech companies in Switzerland

Number of Deep Tech companies per million inhabitants

There are a large number of startups in the area that focus on cutting-edge technologies such as Artificial Intelligence, biotechnology, cybersecurity, robotics, and virtual reality. Some notable startups in Western Switzerland include Flyability, Nexthink, Sophia Genetics, Lunaphore, Gamaya, and many others.

DeepTech in Switzerland

Ecosystem overview in Western Switzerland

1 Schools and universities

Western Swiss universities such as the EPFL, the University of Lausanne, the University of Geneva, the University of Fribourg, the University of Neuchâtel and the University of Bern are leading centers of research and education, which have developed expertise in advanced technology and innovation.

2 Incubators and accelerators

Swisscom Digital Lab, Fongit, Alp ICT, MassChallenge, and Seedstars World are organizations that offer incubation, acceleration, and mentoring programs to Deep Tech startups.

DeepTech in Switzerland

Ecosystem overview in Western Switzerland

3 Investors and venture capital

Investors such as Swisscom Ventures, Lakestar, Index Ventures, Endeavour Vision in Deep Tech startups in the region.

4 Events and conferences

Many events are organized each year to bring together the actors of the Deep Tech ecosystem in Western Switzerland. Events such as the EPFL Forum, the Swiss Startup Day, the Seedstars Summit are some examples.

DeepTech in Switzerland

Ecosystem overview in Switzerland

Zug: deep tech cluster

In recent years, the deep tech sector attracts a great deal of attention. Impacting all industries, deep tech companies and start-ups are creating disruptive solutions based on new technologies such as artificial intelligence, machine learning, robotics, drones, sensor technology, advanced materials, and blockchain. Companies in the Canton of Zug benefit from a fast-growing technology cluster, a highly innovative and dynamic business environment, a broad industry-mix and access to highly qualified workforce.

- School of Computer Science and Information Technology
- Switzerland InnovationPark Central
- Technology Forum Zug (tfz)
- Mindfire Foundation
- Centre Suisse d'Electronique et de Microtechnique CSEM
- Blockchain / Crypto Valley
- Swiss Federal Institute of Technology Zurich (ETH Zurich)
- Swiss Federal Laboratories for Materials Science and Technology (Empa)

DeepTech in Switzerland

Ecosystem overview in Switzerland

The founding partners of the DeepTech Alliance are a diverse group working with and helping deep tech startups.

A truly international group from Sweden, France, Germany, Switzerland, Denmark, Italy, Spain and Israel.

Switzerland: ieLab

ieLab is the deep science accelerator connected to ETH Zürich, Switzerland.

DeepTech in Switzerland

Ecosystem overview in Switzerland

Innovation platform for FemTech

A global FemTech community and a 9 month equity free FemTech start-up acceleration program for companies developing innovative solutions to improve technologies relating to women's health with international reach.

DeepTech in Switzerland

Ecosystem overview in Switzerland

Founded in 1998, the Swiss Biotech Association represents the interests of the Swiss biotech industry. To support its members in a competitive market, the Swiss Biotech Association works to secure favorable framework conditions and facilitate access to talents, novel technologies and financial resources. To strengthen and promote the Swiss biotech industry, the Swiss Biotech Association collaborates with numerous partners and life science clusters globally under the brand Swiss Biotech™.

Missions

- Developing favorable and competitive framework conditions
- Attracting talent, know-how and financial resources to drive innovation and growth
- Fostering networking through strategic, national and international partnerships
- Promoting the accomplishments of the Swiss biotech industry

Space Research and Technology: Establishment of a European Space Deep-Tech Innovation Centre ESDI in Villigen (AG)

On 17 May 2022, State Secretary Martina Hirayama and Josef Aschbacher, Director General of the European Space Agency (ESA) signed a Memorandum of Cooperation between Switzerland and the ESA establishing a joint Centre of Excellence at the Paul-Scherrer Institute (PSI).

This Centre, named **ESDI for European Space Deep-Tech Innovation** aims at closing the gap between academic research and economic developments in space. It is intended to structure the ESDI around thematic platforms involving partners inside and outside Switzerland. The centre's activity will focus on identifying challenges resulting from ESA's own needs or from the space community at large. Material research, data management and processing, quantum technologies, as well as sustainable space ecosystem are planned to be among the first thematic platforms to be established to address these challenges. The ESDI will play a coordinating role and facilitate projects by leveraging existing infrastructures with a network of partners in universities and industry across Europe.

Delphine Seitiée

General Secretary, Alp ICT
